

Government Contracts Matrix Tools

Exclusive Matrix Tools simplify your contracting process and allow you to quickly focus on what's relevant to you.

Wolters Kluwer's unique line of **Matrix Tools** consolidate your various requirements and provisions in an easy-to-read chart format with explanations and links to full text definitions displayed in one view.

- Links to the full text of FAR and DFARS provisions and clauses
- The applicability of each provision or clause within the scope of the contract
- "Plain English" explanations of each provision, clause, and alternate
- Reporting requirements for contract compliance
- Mandatory and recommended subcontract flowdown
- Links to FAC amendments, DFARS rules, and archived provisions and clauses to produce a historical framework
- Links to external government websites and resources to expedite workflow
- Analysis on the allowability of FAR Part 31 cost principles
- The ability to save your matrix and corresponding clauses into research folders, export it, modify it, and share it with others
- Access to our expert editorial staff for questions
- Government Contract weekly report letters for the latest developments, contracts awarded, and rules

Plus, they give you the flexibility to focus on only the requirements that apply to your contract — saving you time and money, while protecting your compliance integrity.

Government Contracts Matrix Tools

Results in 2 clicks!

Step 1: select the provisions & clauses relevant to your contracts

Customizable across all FAR & DFARS clauses and provisions. Select entire subchapters or specific parts of sub-chapters

Then click on Provision and Clauses Results

The screenshot shows the 'FAR - DFARS Combination Matrix' interface. On the left, a tree view lists various subchapters (A through G) and their respective parts. Several items are checked, including FAR Part 13, FAR Part 15, FAR Part 215, FAR Part 16, FAR Part 216, FAR Part 17, FAR Part 217, Subchapter E, Subchapter F, and Subchapter G. A red arrow points from the 'Provision and Clause Results' tab to the selected items in the tree view.

Step 2: click to view your results!

Hyperlinks to the full text of FAR and DFARS provisions and clauses

"Plain English" explanations of each provision, clause, and alternate

Recent amendments are highlighted in green

Mandatory and recommended subcontract flowdown

Links to archived provisions and clauses provide a historical framework

Save, print, export, and email your research and matrix chart

The screenshot displays a table with columns: Title, Prescribed In, Applicability, Description, Reporting Requirements, Flowdown, Related Provision/Clause, Archives, and Amendments. The 'Description' column contains plain English explanations. The 'Archives' column lists various FAR and DFARS parts with dates, and some entries are highlighted in green to indicate recent amendments. A red arrow points from the 'Plain English' callout to the 'Description' column. Another red arrow points from the 'Recent amendments' callout to the green-highlighted entries in the 'Archives' column. A third red arrow points from the 'Mandatory and recommended subcontract flowdown' callout to the 'Flowdown' column. A fourth red arrow points from the 'Links to archived provisions and clauses provide a historical framework' callout to the 'Related Provision/Clause' column. A fifth red arrow points from the 'Save, print, export, and email your research and matrix chart' callout to the top right corner of the interface.

Wolters Kluwer's government contracts resources are designed to simplify the entire contracting process, improve your efficiency, and minimize your risk.
