International Business Transactions

edited by Dennis Campbell & Reinhard Proksch

Commentary, Forms and Documents, including Wordprocessing Software
This unmatched resource combines a loose-leaf of practical business contract information – including a guide to international business developments and a checklist of legislation to consider when drafting contracts – with a complete CD-ROM of forms and documents for practitioners to adapt and use.

**International Business Transaction features:**

- Instant access to major contracts ensuring that you save precious time
- Overview of legislation to be considered when drawing up contracts
- Practical guide to international business developments

**Forms provided include:**

- general licensing agreements,
- software licensing,
- turnkey contract,
- branch establishment,
- appointment of foreign company directors,
- letters of credit,
- joint ventures,
- performance bonds,
- EEC antitrust notification,
- arbitration clauses, and
- choice of law clauses.

Users simply type in the applicable names and dates and this software automatically generates a first draft from which to work. Generating a first draft this way saves time for more complex aspects of a deal and provides a jumping-off point for considering the various aspects of the applicable contract. The accompanying loose-leaf guidance takes the guesswork out of spotting potentially significant issues when tailoring the contract to a particular situation.

An introduction and commentary accompany each form, providing you with a comprehensive reference.
